

International Post Graduate Program in

DIABETES

MELLITUS MANAGEMENT

INTRODUCTION

The International Post Graduate Program in Diabetes Mellitus Management is an immersive 9-month online course and 3-month clinical experience for doctors seeking to advance their careers as emergency medicine specialists. This program consists of three modules, each providing a unique perspective on diabetes care.

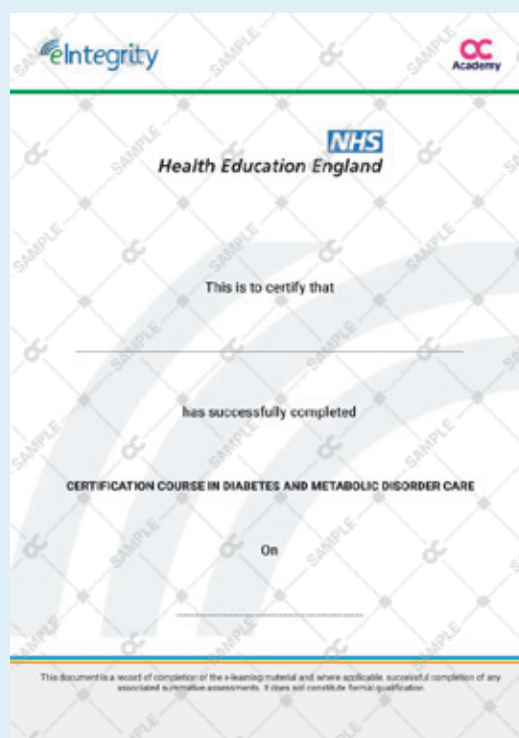

1

Diabetes & Metabolic Disorder Care Certification

This foundational course covers all essential topics within the realm of endocrine and metabolic disorders care, including diabetes. The program is developed by globally renowned experts and certified by NHS UK.

Key Topics Covered

- Oral hypoglycaemics
- Hyperthyroidism
- Testosterone Deficiency & Male Hypogonadism
- Calcium & bone metabolism disorders
- Diabetic Kidney Disease
- Insulin management

2

Advanced Interactive Program

The program builds on the foundation by providing in-depth training on advanced topics through on-demand video lectures and live classes. It is accredited by CPD and Indo Global Cardio Diabetes Academy.

Key Topics Covered

- Microvascular Complications of Diabetes Mellitus Management
- Insulin—Past, Present and Future
- Diabetes and Cardiac Co-morbidities
- Gestational Diabetes Management
- Incretin mimetics and Other weight Management
- Pancreas and Islet Cell Transplantation in Type 1 Diabetes

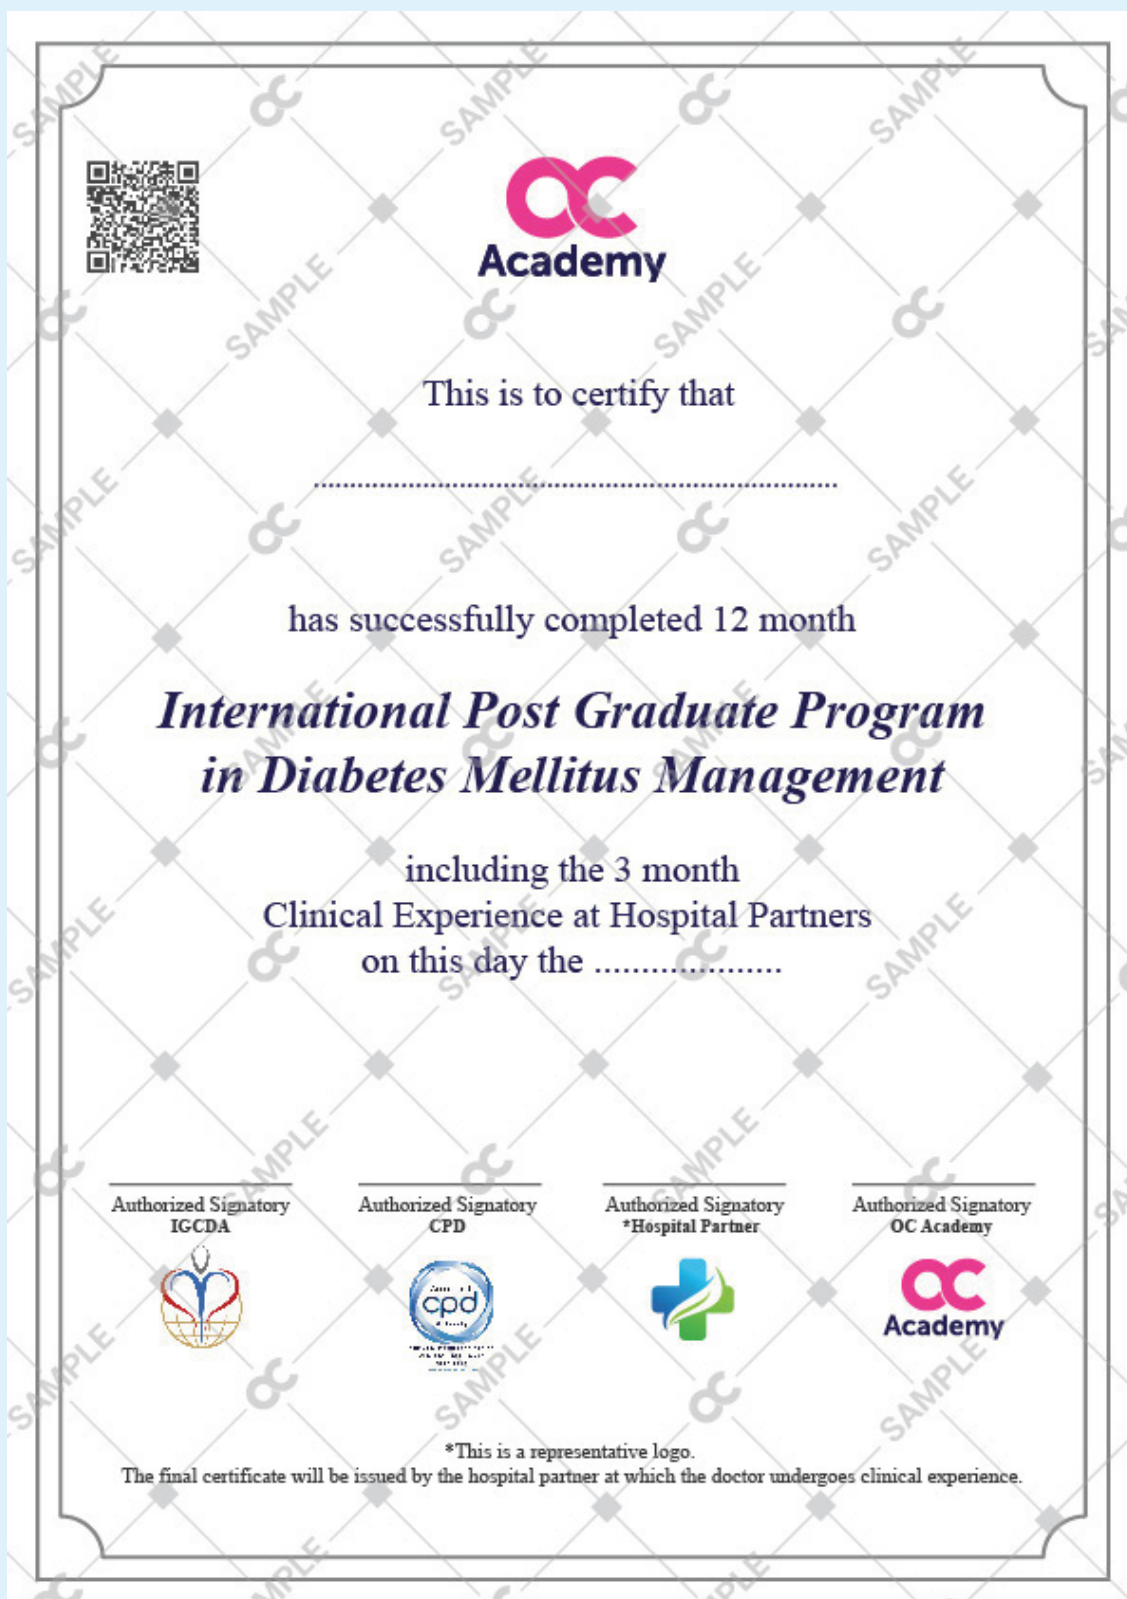

3
